Profile

Software Developer with over 3 year of experience contributing to multiple projects. Skilled in modern web tools passionate about crafting responsive user-focused websites. Solid understanding of programming fundamentals, with a talent for solving problems and writing clean code. Enthusiastic about teamwork quick to learn new technologies and driven to build effective digital solutions.

Professional Experience

2022/09 – 2026/06

Adama, Ethiopia

Project Leadership & Collaboration

Adama Science and Technology University Student

- I have led and contributed to multiple team-based academic and side projects. I enjoy organizing tasks, helping teammates debug, sharing learning resources, and presenting project outcomes. This has helped me grow both technically and as a team collaborator.

2024/07 – 2024/09

Maryland, USA

Software Developer - Internship

Evangadi Tech - Remote [🔗](#)

- Worked as a **Software Developer at Evangadi Tech**, contributing to two production-level admin dashboard projects **Evangadi Academy (online learning platform [🔗](#))** and **Evangadi Tutoring (one-on-one personalized tutoring for Grades 1–8 [🔗](#))**. Developed and maintained admin-side dashboard features for managing users, content, and system workflows.
- Built reusable UI components and refactored existing modules, reducing code redundancy by approximately **40%** and improving maintainability across projects.
- Automated manual administrative workflows, decreasing repetitive operational tasks by **30–40%**, and collaborated closely with cross-functional teams to deliver scalable, reliable, and user-friendly solutions.

2026/01 – 2026/03

Miami, Florida,

United States

AI Coding Trainer - Typescript AI coding Trainer

Revelo - Remote Contract [🔗](#)

- Evaluated AI-generated code solutions across full-stack TypeScript and React applications
- Designed and issued prompts via Claude-based tooling to generate features, bug fixes, and production-ready improvements
- Compared outputs from multiple models (Model A vs Model B) to assess code quality, correctness, and completeness
- Reviewed implementations for real-world readiness, including maintainability, scalability, and edge-case handling
- Applied structured evaluation guidelines to ensure consistent and high-quality model assessment

2025/06

Adama, Oromia,

Ethiopia

Frontend Developer Intern

Backos Technologies [🔗](#)

Worked as Frontend Developer intern, contributing to web development projects by building responsive interfaces, solving technical challenges, and collaborating with a team to deliver practical software solutions.

2024/06 – 2024/08

Addis Abeba, Ethiopia

UI Designer and Frontend Developer Intern

Ewnet Communication PLC - On-site [🔗](#)

worked as a UI designer and frontend developer, contributing to a Landing page project. My work focused on building responsive interfaces, and improving the usability of web pages.

Education

2024/04 – 2024/09

Full Stack Web Development

Evangadi Academy [🔗](#)

- Learnt Frontend and Backend Technologies
- Hands-on development experience
- Collaboration and Project Management

2022/05 – 2026/06

Adama, Ethiopia

Bachelor of Science in Computer Science and Engineering

Adama Science and Technology Engineering University [🔗](#)

- **Relevant Courses:** Advanced Programming, Fundamentals of Software Engineering, software development, web technologies, Data Structure and Algorithm, Design and Analysis of Algorithm, Compiler Design, Data Mining , Machine Learning , Distributed System, Introduction to Artificial Intelligence .

Skills

Technical Skills

- **Language:** Python, Javascript, Typescript
- **Frameworks:** React.js, Next.js, Bootstrap, Tailwind, Node.js, Express.js, postgresql, MySql
- **Tools and Technologies:** Vscode, Cursor, Git, Github, Antigravity, Figma

Soft Skill

- Collaboration and Teamwork
- Problem Solving
- Communication

Projects

Linkoch – Link Management Platform [↗](#)

- A web platform for organizing and accessing categorized links, featuring a clean UI and efficient link management system.
- **Technologies :** Next.js,Typescript, Tailwind CSS, Shadcn UI ,Convex

HustleGym – Gym Management System [↗](#)

- Developed a full-stack gym management dashboard using Next.js and Express.js with role-based authentication and secure API integration. Built core features including member management, plans, payments, and attendance, following a scalable frontend–backend architecture.
- **Technologies:** Next.js, React, Tailwind CSS, Shadcn UI, Express.js, MySQL, Zod, JWT

Languages

- Amharic
- English

Certificates

Immersive Software Development Internship [↗](#)

- Recognized as a top-performing student and invited to join **Evangadi Tech** as a Software Developer Intern.

Honorable Mention – 2023 ICPC Ethiopian Collegiate Programming Contest [↗](#)

Best Final Year Project Award [↗](#)

- Awarded for the graduation project, **SebeVerify**, in recognition of its innovation and overall project quality.
